

FilterCloud

Email excellence in the cloud ...

A new and exciting way to fully manage your business email. Isn't it time you for you to take control?

- ✔ **Blocking of Spam, Viruses and Malware before it reaches your server**
- ✔ **Beautiful, intuitive dashboard for managing the service**
- ✔ **Custom infrastructure utilising the latest cloud techniques**
- ✔ **Optimum high-availability of service through multi-zone cloud clustering**
- ✔ **Unique statistical information regarding both inbound and outbound email**
- ✔ **Instant email re-routing**
- ✔ **Hosted Exchange bundling**
- ✔ **One-click SMTP testing directly from within the control panel**
- ✔ **Dashboard fully manageable via tablet or mobile devices**

Filter Cloud is a brand new product to a vital but dormant market. We believe its time for a service that provides a real end-to-end experience to the customer and we do that by doing things differently.

We believe our technology is more reliable and more accommodating to the real needs of today's businesses. Finally, customers have an opportunity to try a new email management system that sits head and shoulders above the competition.

Beautiful, Intuitive Dashboard

Our dashboard is clear, concise and has all the important information you need as soon as you login. The dashboard features a graphed breakdown of that day's email traffic (both inbound & outbound), and a breakdown of email grouped by Inbound, Outbound, Spam and Viruses.

Any Filter Cloud announcements are also posted directly to your dashboard, so you can stay up to date with current developments, new features and service updates.

FilterCloud

Email excellence in the cloud ...

The dashboard is accessible from any internet connected computer, and has been built with the latest web technologies, making it fully responsive across all platforms: tablet, mobile or laptop.

Informative Statistics

Using the dashboard gives you the opportunity to see your email traffic for yourself. You can quickly see who is receiving the most email, or who's sending you the most email and even group inbound email by country.

Statistics can be viewed by Today, Last 48 hours, last 7 days and even last 30 days. So you can quickly identify trends.

When is your company at its most productive?

Statistics Summary Includes:

- ✔ Breakdown of email by type and percentage change
- ✔ Top Recipients shows who in your company is receiving the most email
- ✔ Top Countries gives you a breakdown by country of sender
- ✔ Top Inbound Email Addresses shows who emails you the most
- ✔ We even display your email senders on a map for you
