The ChunkyChips Reseller Platform

Refer or white label our services to your new and existing clients

ChunkyChips supplies the full range of communication direct to our clients: Fibre Leased Lines, EFM, ADSL and FTTC, as well as telephone lines and discount call rates.

Becoming a ChunkyChips Partner gives you access to all these products at highly discounted rates, which you can then offer to your customers as a value add to existing services, or present your business to new customers as an a virtual ISP in your own right.

The ChunkyChips Partner program can either be initiated as a full “White Label” solution (where we invoice you and you invoice your customers directly), or as various Referral platforms, where we pay generous commissions for each customer you refer.

ChunkyChips has ten years experience delivering comms solutions to IT companies, and the Partner Program is particularly suited to IT Support organisations and IT Facilitators

Referral or White Label

Generous Commissions and Discounts

Full UK Support
