Colocation

The ChunkyChips Data Centre

Situated in Basildon, Essex, 27 Miles from the City of London, the ChunkyChips Data Centre offers the perfect Colocation site to host your Disaster Recovery and/or remote backup equipment

A full disaster recovery plan is now essential for modern businesses, and the ChunkyChips Data Centre offers a ready-made solution to house your back-up data or redundant servers.

The Data Centre features a highly secure, temperature controlled Environment offering n+1 failover in both cooling and power, with diverse 1Gb links to the Internet.

ChunkyChips offers numerous colocation options to suit your requirement and budget: from a single U with minimal power, through to a complete 16 Amp rack.

Options are also available for locked off quarter and half racks for ultimate security.

And your security is our priority, with 24/7 surveilance and secure, logged access.
